Step 7 – Submit Your Application

The final submission of your application involves the following steps:

Review and Check Errors - The system will check your application for errors. If errors are present, you will have the opportunity to go back to the tab where the error occurred and correct it. If you do not want to correct the errors you can still submit your application; however, the errors may affect your eligibility and payment amount.

Optional Questions - You may be asked a series of optional questions that do not affect your application. The answers will provide information to your state Medicaid program about incentive program participation.

File Upload – You will have the opportunity to upload PDF files with documentation supporting your application. This optional information could include additional information on patient volumes, locations, or your certified EHR system.

Preparer Information - Providers attesting to the EHR Incentive program have two options for completing the electronic signature portion of the application. The provider can perform the submission process, or the provider can designate a preparer to complete the application. If a preparer is completing the application, they will navigate through screens to collect the additional required information from the preparer. The provider associated with this application is still responsible for the accuracy of the information provided and attested to.

The initial *Submit* screen contains information about this section.

Click the **Begin** button to continue to the submission process.

This screen lists the current status of your application and any error messages identified by the system.

You can correct these errors or leave them as is. You can submit this application with errors; however, errors may impact your eligibility and incentive payment amount.

Note

If you have previously submitted the incentive application you are currently working on (your incentive application has changed from a Submitted status back to an Incomplete status) and you: chose the 12 Months Preceding Attestation Date option on the Patient Volume 90 Day Period (Part 2 of 3) screen, and edited the Start Date since your previous submission, you will receive the following error message if the new 90 day date range is no longer valid: "The Patient Volume 90 day date range is no longer valid." You have received this error because the 90 day range you have currently selected is not valid with the "12 months Preceding Attestation Date" option; therefore, the date range is no longer valid. **You must correct this error**. MAPIR will not allow you to proceed with your submission until this error is corrected.

To correct errors:

Click **Review** to be taken to the section in error and correct the information. To return to this section at any time click the **Submit** tab.

Click **Save & Continue** to continue with the application submission.

The Application Questionnaire screen presents optional questions. Answer the optional questions by selecting **Yes** or **No**.

Click **Save & Continue** to review your selection or click **Previous** to go back. Click **Reset** to restore this panel to the starting point or last saved data.

To upload files, select a document type from the "Document:" drop-down box and click **Browse** to navigate to the file you wish to upload.

Note
Selecting a document type from the "Document:" drop-down box is not required for document submission.
